

SEARIDER

SEA RIB™

WORLD'S TOUGHEST SEA RIB™

The SeaRider has been proven in operation use around the world, by both military and professional operators; with its unique water ballast system and deep "V" hull, giving the craft exceptional sea keeping capabilities, yet still offering high performance and manoeuvrability in the heaviest of seas.

The Zodiac Milpro SeaRider can be ship launched, and if required, self righting equipment, and inboard variants can be supplied on certain models.

Zodiac Milpro has been at the forefront of the design and development of RIBs since its onset.
